5. The kinds of Personal Data processed by the App

A. Personal Data by using our Service

In order to improve the Service, parties use anonymous Data. This information will not go public through the Service.

B. Automatically generated information

Like most other websites and online services, parties gather and process automatically generated information about how you use the App. The information gathered includes your IP-address and/or an unique device ID.

If you specifically opt-in, the App may collect your geo-location information. In any event, you can block geo-location collection through the settings of your mobile device.

If you specifically opt-in to permit access and collection of information from your social network account, then your basic personal information in your social network account will be collected (such as your name and email address) as well as your social network user id (but not your password) and parameters related to the posts you shared through the App. Please refer to the social network's privacy policy for more details on how you can set the privacy preferences of your account to control the information that may be accessed and retrieved.

This also occurs with regard to the automatically generated information about how you use the App. This kind of information helps us to better understand how the App is used, and how we can improve the Service to suit the need of you as an user. If you enable the user authorization features inside the App, the following additional information will be stored:

- Name;
- Email address;
- Age range (optional);
- Gender (optional);
- Phone number (optional);
- Additional profile information returned by an external provider such as Facebook or LinkedIn.

To provide the App-owner with information about the usage of the app we are also collecting the following (anonymous) information:

- The moment you open the app;

- The blocks you've opened inside the app and the amount of time you've spend in this block;
- Actions such as music playback, opening urls etc.
- The moment you leave the app;

Note: if the user authorization features are enabled we are able to link the anonymous information to you once you login.

C. Specific information

The App-owner may ask you to engage in certain activities in the App, such as for example loyalty-card, newsletters, advertising, in which case you will be asked for certain personal information. This information will be stored in the databases of YMF.io and will be shared with the App-owner.

When you upload Data, including photos in the App, this will be shared and can be viewed by all other users of the App.

6. For what purposes do parties process Personal Data?

A. Purposes

Parties processes Personal Data for the following purposes:

- to enable you to use the Service;
